WINE SELECTION 2024

OUR STORY

At PepperGreen Estate we are inspired by our stunning surroundings of the Southern Highlands, where the finest quality wine and produce is created to be enjoyed by people all around the world. We understand that our role as winemakers is to create a quality wine range that reflects the region in which the grapes are grown.

Our team, including Master of Wine Nick Bulleid, works diligently to create a selection of wines from the sandy loam soil of the Southern Highlands and premium selected cool climate regions.

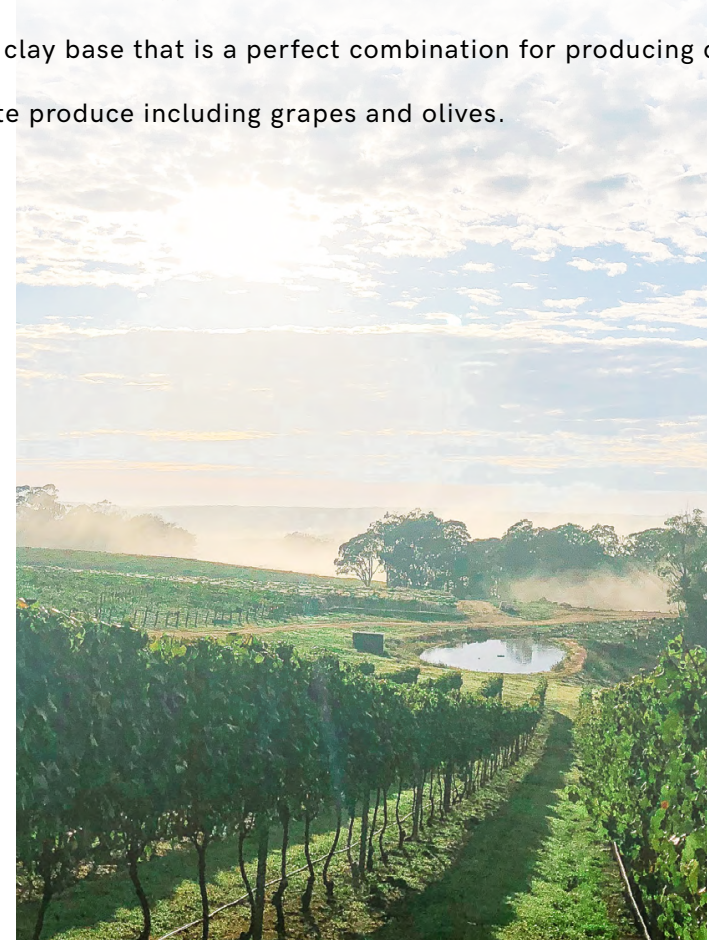

When looking at PepperGreen Estate wines, we break it down to a systematic approach. You look at the colour and clarity of a wine, assess the bouquet and the palate; appreciate the various palate scales, discuss the acidity, the tannins and the finish of a wine. When we consider PepperGreen Estate wines, they are fine wines exhibiting finesse and delicacy.
